■ STATUS: IN PROGRESS

2025 · WE ARE HERE

Where we are today

Energy use intensity is 18% lower and Scope 1 & 2 emissions are 26% lower than in 2020 (market-based). 1,150 kWp of rooftop solar now operates on four buildings, and five of six buildings hold BCA Green Mark certification.

Environmental

Social

Governance

Cutting energy and carbon in the buildings we operate.

01

Chiller plant upgrades

Replaced end-of-life chillers at three buildings and re-tuned the plant controls.

Plant efficiency improved from 0.78 to 0.60 kW/RT; about 2.1 GWh saved a year

02

Smart analytics and LED lighting

Fault detection and diagnostics across all six buildings, plus LED lighting with occupancy sensors in all landlord areas.

About 3.5 GWh saved a year

03

Rooftop solar

Solar panels on four rooftops supply part of each building's common-area electricity.

1,150 kWp installed; about 1.2 GWh generated in 2025

04

Water and waste

Smart water meters, leak detection and separate recycling streams for tenants.

Water use intensity 12% lower than 2020; recycling rate 28% (2020: 17%)

□ In progress: Building F is targeting BCA Green Mark Platinum after asset enhancement works due for completion in 2027.

CASE HIGHLIGHT | BUILDING C (ANONYMISED)

Retrofitting a 25-year-old office tower

Grade A office · 420,000 sq ft NLA · completed 1999 · works carried out 2023–2024

Building C's original chiller plant and building controls were reaching the end of their life. The owner replaced the chillers, upgraded the building management system with smart analytics and switched all landlord areas to LED lighting, phasing the works around tenants' business hours. The building's BCA Green Mark rating moved from Gold to GoldPLUS in 2025.

STATUS: TARGET

2030 · SELECTED MILESTONE

Interim target

Cut absolute Scope 1 & 2 emissions by 42% vs 2020, to about 9,740 tCO₂e; certify 100% of floor area under BCA Green Mark; source 30% of landlord electricity from renewables.

NEXT STEPS

Building F upgrade (2027), solar on the remaining two rooftops, low-GWP refrigerants in all chiller replacements.

← 2025 Where we are today 2050 Net zero →

2030 TARGETS

-42%	absolute Scope 1 & 2 emissions vs 2020 (about 9,740 tCO ₂ e)
100%	of floor area certified under BCA Green Mark
30%	of landlord electricity from renewables

Environmental

Social

Governance

Healthy, safe and inclusive places
for the people who use our
buildings.

IMAGE · ADOBE STOCK: "DIVERSE ASIAN COLLEAGUES
OFFICE LOUNGE INDOOR PLANTS NATURAL LIGHT"

01

Healthy indoor environments

Real-time indoor air quality sensors in every lobby and common area, with readings shared with tenants.

100% of common areas monitored; 2 buildings WELL Health-Safety Rated

02

Safety first

Permit-to-work systems, contractor safety briefings and quarterly safety audits at every building.

Zero fatalities; lost-time injury rate of 0.4 per million hours worked

03

Active and inclusive buildings

End-of-trip facilities, nursing rooms and barrier-free access across the portfolio.

420 bicycle bays; end-of-trip facilities in 6 of 6 buildings

04

Tenants and community

A tenant sustainability programme with quarterly energy dashboards, plus volunteering with local charities.

140 tenants receive energy dashboards; 1,250 volunteer hours in 2025

Our approach

[Environmental](#)
[Social](#)
[Governance](#)

Clear oversight, transparent reporting and responsible partners.

01

ESG oversight

A portfolio ESG committee meets monthly and reports to the board every quarter.

ESG targets make up 15% of senior management scorecards

02

Transparent reporting

Climate-related disclosures prepared with reference to IFRS S2, and annual participation in the GRESB Real Estate Assessment.

GRESB score 82/100 (sample)

03

Green leases

Lease clauses covering energy data sharing, fit-out standards and joint efficiency targets.

64% of leased floor area on green leases

04

Responsible supply chain

A supplier code of conduct and ESG criteria in all major tenders.

100% of key contractors have signed the code; ESG criteria in all tenders above S\$500,000
